TOTAL PROGRAM COST (estimate) (Company Contribution + Export Voucher Request)		
Proportion Calculation¹: Export Voucher Value divided by Total Cost = %	%	

- 1) Export Vouchers can be a maximum of 75% of the total program cost, not to exceed \$5000. It is anticipated that there will be high demand for these Export Vouchers which may result in allocations to companies at less than their requested amount.
- 2) The Export Voucher program was developed to increase the number of small businesses exporting, as well as increase the value of exports from SBCs already exporting. Export Voucher awards will be based on funds available, the number of applications, and the strengths of the applicant submittals. Stronger companies showing enhanced export-readiness, resource and financial commitment to export activity may receive higher value Export Vouchers.
- 3) Export Vouchers are limited to one voucher per company per program year (9/30/2011- 9/29/2012).
- 4) Department of Commerce decisions for Export Voucher values are final.
- 5) An Export Voucher may be used to cover participation costs (including airfare) for up to two individuals if the activity/event

is a trade show or mission targeted by Commerce. Otherwise the Export Voucher may only be used to cover participation costs of one individual.
